My passion for coding derives from my interest in building things from the ground level.
I'm motivated by the challenging and rewarding problem-solving required in software engineering and app development. In addition, the technical skillset I've developed during my career in warehouse management are project management, maintaining organization, mediation, communication, client-focus and exceeding expectations with efficiency.

SKILLS: HTML | CSS | NodeJS | JavaScript | Express | React | Python | Django | MongoDB | PostgreSQL

SOFTWARE ENGINEERING EXPERIENCE:
Software Engineering Immersive | General Assembly | Remote   July 2022 – October 2022
Completed the Software Engineering Immersive Program that included over 400 hours of professional training over 12 weeks. Utilized a hands-on approach to design and build web applications with full CRUD functionality through HTML, CSS, JavaScript, React, and Python.

PORTFOLIO WEBSITE – www.Mitchell-G.com | Website built with HTML, CSS, and JavaScript that contains links to multiple projects I have created independently or worked on as part of a team.

PROFESSIONAL EXPERIENCE:
System Three Resins, Inc. | Lacey, WA | Warehouse Manager   February 2016 – May 2022
- Supervised up to 15 full and part-time employees and managed daily operations including machine troubleshooting, supporting customer service with damaged orders and shipment discrepancies.
- Led a customer-focused team by enforcing inventory control to make sure all orders shipped accurately and on time.
- Trained all employees on the Amazon vendor central user interface to submit, assign, and track up to 150 orders a day.
- Certified to ship IATA hazardous goods for all international and hazardous shipments.
- Implemented an organizational system to increase efficiency by creating a standardized outline for each position and an accountability toolkit for employees which increased staff retention.

Owens and Minor Distribution, Inc. | Sumner, WA | Warehouse Lead   July 2009 – February 2016
- Managed a team of order-pickers who used RF scanners and voice-picking technology to select and build orders of critical medical supplies.
- Responsible for releasing and assigning orders, and training and auditing teammates for accuracy.
- Certified in all types of material and equipment handling as well as hazardous material disposal.

The Home Depot | Redmond, WA | Shipping and Receiving Manager   May 2006 – April 2009
- Supervised a team that verified all incoming and outgoing shipments.
- Worked in all departments during my time with Home Depot, including supervising the night crew and the vendor buy-back program.
- Managed the hazardous material disposal program and equipment operations training.
